INFORMATION REPORT

This material contains information affecting the National Defense of the United States within the meaning of the Espionage Laws, Title 18, U.S.C. Secs. 793 and 794, the transmission or revelation of which in any manner to an unauthorized person is prohibited 25X1 by law.

SUBJECT Agfa-Molfen Construction of a Wolcrylon Installation for the USSR DATE OF INFO. PLACE ACQUIRED This is UNEVALUATED Information THE SOURCE EVALUATIONS IN THIS EPOST ARE DEFINITIVE. THE APPRAISAL OF CONTENT IS TENTATIVE. (FOR REY SEE REVESSE) The Kraftstoff-Industriebau (KIB) in Leipzig is the principal projecting bureau (Hauptprojektant) for export orders in the field of chemistry. It has processed an order for the projecting (although not the construction) of a Wolcrylon 25X1 installation for the USSR, similar to that already under construction at Agfa-Wolfen. Both machines are to have the same yearly output of 2,000 tons. Work has already begun on the construction. A definite delivery date has not yet been determined.			S-E-C-R-E-T
